PROFESSIONAL SUMMARY

Technical Program Manager and operations leader with 10+ years delivering digital systems, operational infrastructure, and complex cross-functional programs across nonprofit, education, and technology sectors. Proven record managing multimillion-dollar initiatives, securing philanthropic funding, and deploying scalable operational infrastructure. Currently completing an A.A.S. in Computer Technology (Information Systems Specialist) with training in networking, cybersecurity, data analytics, and web development. Experienced translating technical requirements into operational solutions that improve organizational performance and accountability.

CORE SKILLS

Program & Operations Leadership

- Technical Program Management
- Strategic Planning & Implementation
- Budget Oversight (\$1M+ program portfolios)
- Cross-functional Team Leadership
- Vendor & Stakeholder Management
- Compliance & Reporting Systems

Technology & Systems

- Networking fundamentals (TCP/IP, VLANs, subnetting)
- HTML, CSS, JavaScript, PHP
- Data analytics & reporting dashboards
- Workflow automation and productivity systems
- CMS platforms, LMS systems
- Digital infrastructure deployment

Tools & Platforms

Project & Workflow Tools

Notion • Airtable • Make.com • Google Workspace

Analytics & Reporting

Data reporting dashboards • Excel • Google Sheets

Productivity & Design

Microsoft Office Suite • Adobe Suite • Cursor IDE

Development & Technical Tools

GitHub • Replit • HTML • CSS • JavaScript • PHP

Content & Web Platforms

Wix • CMS platforms • LMS systems

PROFESSIONAL EXPERIENCE

Executive Director

Social Justice & Community Media Nonprofit 2020 – 2024

- Secured and managed \$1.5M+ in philanthropic funding supporting statewide community programs.
- Implemented organizational technology infrastructure including CRM systems, digital communications platforms, and workflow automation tools.
- Deployed reporting dashboards and compliance systems used for board oversight and external audits.
- Led a distributed remote team of 8–12 staff, implementing asynchronous operations and project management frameworks.
- Launched a community media program serving 200+ participants statewide.
- Coordinated with legal, financial, and policy stakeholders to ensure regulatory compliance and operational continuity across complex program initiatives.

Extension Agent / Technology Curriculum Coordinator

SC State University — 1890 Research & Extension 2010 – 2015

- Designed and delivered digital literacy and technology education programs across multiple South Carolina counties.
- Produced multimedia training materials including web, video, and print educational content.
- Managed program databases and reporting systems for federal USDA program compliance.
- Coordinated community events and training sessions reaching 500+ participants annually.
- Collaborated with faculty, extension offices, and government partners to align programming with federal mandates.

TECHNICAL PROJECTS

Workflow Automation Systems

Designed digital productivity workflows using Notion, Airtable, and Make.com that reduced manual reporting overhead and improved project coordination, reporting, and operational tracking across distributed teams — directly increasing cross-functional accountability and delivery speed.

Web Development Projects

Built responsive web forms and dynamic website components using HTML, CSS, JavaScript, and PHP. Projects include workshop registration systems for children's education programs and landing pages for community – facing digital initiatives.

Data Reporting Dashboards

Developed spreadsheet-based analytics dashboards to monitor program outcomes, grant compliance reporting, and operational KPIs for board-level review. Applied data analytics coursework to real-world nonprofit program measurement.

Network Configuration & Security Studies

Applied direct VLAN segmentation, IPv6 addressing, subnetting, and network security configurations through advanced networking coursework (CPT 180, CPT 187, CPT 262) at Trident Technical College.

EDUCATION

A.A.S. Computer Technology – Information Systems Specialist

Trident Technical College, Charleston, SC **Expected 2026** | Community Workforce Development Scholar
Coursework: *Networking • Cybersecurity • Data Analytics • Web Development • Java Programming*

B.A. Mass Communications

Claflin University, Orangeburg, SC

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- CompTIA Security+ — In Progress (2026) | DoD 8570 Compliance Pathway
- Open Society Foundations — Justice Fellowship
- Rockwood Leadership Institute — Art of Leadership
- FreeCodeCamp — Responsive Web Design

KEY ACHIEVEMENTS

- Secured \$1.5M+ in philanthropic funding supporting statewide programs.
- Implemented digital reporting and compliance systems for board and external audit oversight.
- Managed distributed, multi-stakeholder remote teams across complex program portfolios.
- Delivered technology training programs reaching thousands of participants across South Carolina.
